**HENDO** wall panel is an innovative product which offers unlimited arrangement possibilities, combined with an easy way of assembly.

Full offer / All patterns available at:  
[hendo.ue.com](https://hendo.ue.com)

Individual pattern

Individual pattern designs are available from small quantities, based on the customer's project. Available upon individual order and price.

Did you know that you can order your own, original HENDO wall panel pattern and create an interior of your dreams?

## HENDO PROFILES

**HENDO PROFILES** are made on the basis of natural raw materials – minerals with a small addition of binding substances.

They are characterized by a very high specific weight and density exceeding  $2000 \text{ kg/m}^3$ .

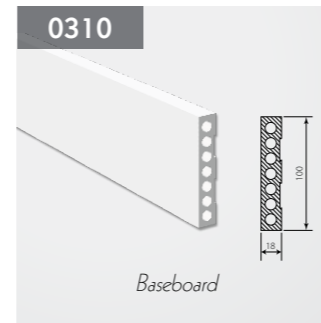

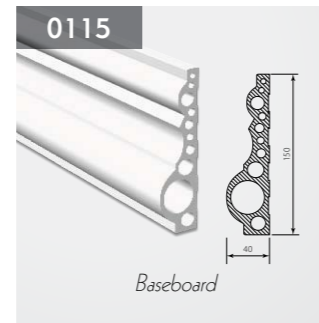

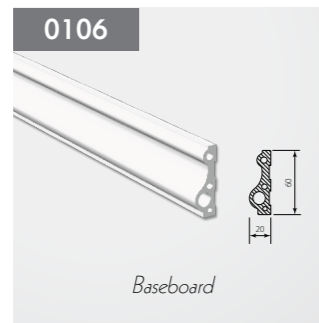

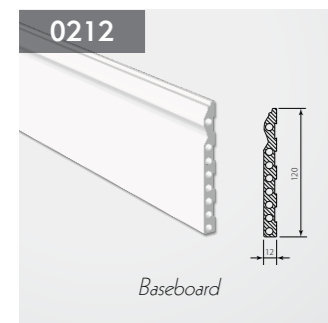

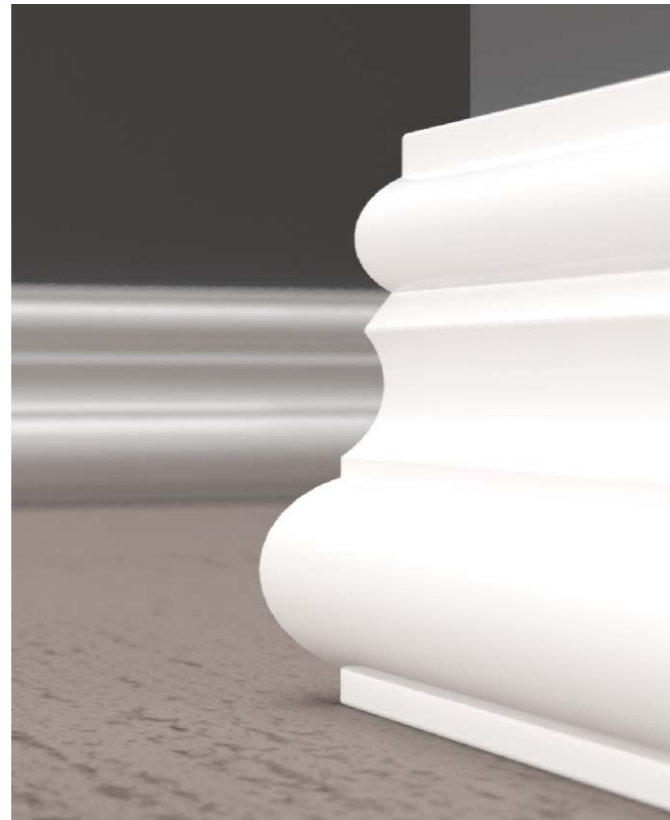

All profiles are produced in **white**, with two surface variants – **gloss** and **mat**.

Inside the profiles, there is a ribbon and conduits to lay electrical wires, antenna cables.

### Advantages of HENDO profiles:

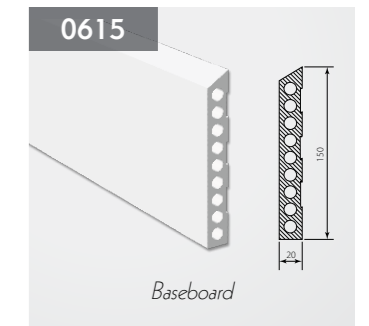

- waterproof
- insensitive to fungi and mold
- highly resistant to damage
- easy, clean assembly
- cool surface to the touch
- a large selection of cross-sections

Standard length of profiles – **2000 mm**
