

# HENDO

DECORATIVE WALL PANELS

**MADE IN  
EUROPE**

HENDO IS A BRAND OF

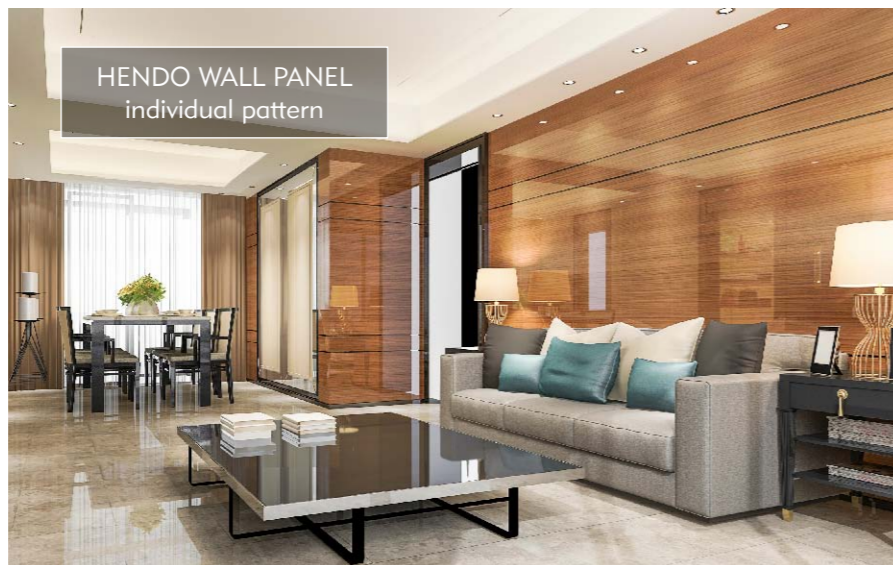

**MECH-ROL-PLAST**

Mech Rol Plast is a family business with traditions. Operating for over 50 years. Initially, the company's activity was related to the development and mechanization of agriculture.

We started processing plastics in the 1980s. Taking care of continuous development in this field, we soon became a leader on the Polish market. Currently, the company produces insulation materials and interior decoration products.

Investments and a well-thought-out strategy have led to the creation of high-quality panels and strips of the **HENDO** brand, based on mineral ingredients.

From the very beginning, we took care of the natural environment. We place a strong emphasis on closed-loop production. We follow contemporary global trends in this field. We operate on the basis of waste-free production, which means that all waste is recycled and managed at the place of production. We apply the principles of REUSE, REDUCE and RECYCKLE. We are still looking for better solutions that are beneficial for the environment and people. In the production process, we use energy obtained from renewable sources. We have many certificates and awards granted by national and local authorities as well as economic organizations.

ENVIRONMENTAL PROTECTION

## HENDO DECORATIVE WALL PANELS

**HENDO** panels represent high, European design. They are characterized by an original design, attention to detail and high-quality workmanship. We focus on elegant, luxurious, timeless and sometimes extravagant style of products.

We work with many architects whose knowledge and experience contribute to the development of **HENDO** products.

The production technology allows for the implementation of individual patterns of wall panels to the order of the designer or investor. This option is already available for small orders.

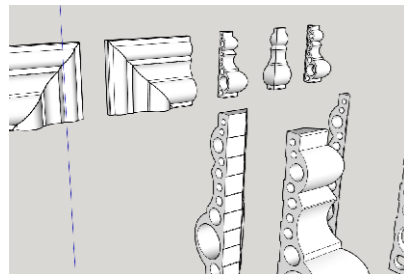

We provide 3d materials for designers and product samples.

We give young people a chance for development by supporting education. We invest in higher education.

We are the co-owner of the University of Social Sciences in Poznań.

We actively contribute to the development of the Faculty of Arts and the fields of study Design and Interior Architecture.

At the professional and secondary level, we train highly qualified professionals. We organize trainings and workshops as well as prepare educational publications and instructional videos.

We are a partner of the „E-Professionals” program of the National Forum of Career Consulting, which introduces innovations in teaching at the professional level.

We finance open-air workshops and workshops to raise qualifications. We fund prizes and scholarships for gifted youth.

for: Grzegorz Pierzchella

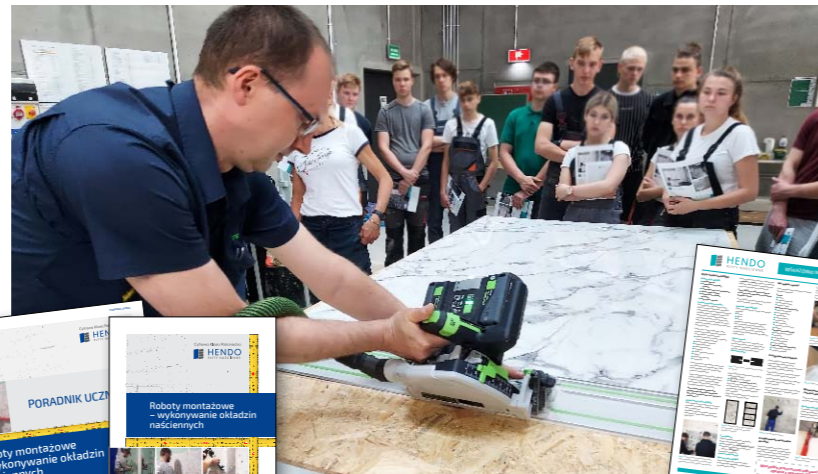

We have a great merit in protecting the European cultural heritage. We rebuilt the historic palace and park in Psie Pole. We received an award from the Ministry of Culture for this.

We support and finance charitable and philanthropic activities on the local market. We are involved in the activities of non-profit foundations. We are a patron of art and culture.

We build good relationships for the future with business partners, including them in joint initiatives for the development of the young generation.

We invite all those who think and create like us to cooperation.
